**CRAIG M. WALKER, MD**  
FOUNDER, CHAIRMAN

---

## A MESSAGE FROM OUR **FOUNDER**

**T**wenty-one years after its inception, New Cardiovascular Horizons continues to focus on its mission of improving healthcare for patients with peripheral vascular disorders and establishing the link between these disorders and overall cardiovascular mortality.

Improving outcomes requires better providers and patient awareness, effective and precise diagnosis, state-of-the-art medical therapy with longitudinal follow-up, and implementation of advanced interventional and surgical treatment. It also requires better wound healing, rehabilitation, and addressing the high-risk of cardiovascular death predominately related to myocardial and cerebral ischemia. Outcomes are closely related to thorough evaluation and close cooperation between multiple disciplines.

Visionary inventors, healthcare providers, interventional pioneers, epidemiologists, medical administrators, and medical companies share this vision. They have joined NCVH in growing numbers to help achieve this goal of improving patient care. Hospital and practice administrators are now attending in increasing numbers as it is becoming progressively apparent that the treatment of peripheral vascular disorders is a vital part of overall medical care.

### **THE ANNUAL CONFERENCE IN NEW ORLEANS HAS DEVELOPED A FRATERNITY OF ATTENDEES WHO SHARE IN THE VISION OF IMPROVING PATIENT OUTCOMES.**

Didactic lectures, debates, hands-on sessions, live cases with exceptional operators from around the world, detailed new technique descriptions, and our new technology session have been an integral part of our conference. We have a large and growing, fellows course with extensive simulator exposure. Sessions on the treatment of venous disorders, the similarities of coronary CTO and CLI treatment, gender disparity, radiation protection, office-based procedures, the business of medicine, and wound healing are a growing part of this conference. As you can see, NCVH has sessions for the most advanced peripheral interventionists, as well as those just beginning to treat peripheral disorders.

NCVH attendees loyally return year after year to receive practical education delivered in a congenial atmosphere. The meeting has grown because of recommendations to others by these attendees. I sincerely hope that you will attend our 21st Annual Conference to experience why attendees return and join us as advocates for better care of peripheral vascular disorders.

See you in New Orleans!

Thank you,

A handwritten signature in black ink that reads "Craig M. Walker MD".

Craig M. Walker

NCVH Founder and Chairman

## WHAT TO EXPECT FROM THE NCVH ANNUAL

NCVH Annual Conference in New Orleans will offer you a week of world-class education in an intimate venue where attendees get the chance to network with leaders across several multidisciplinary fields. A stellar faculty and agenda showcasing excellence in vascular medicine and intervention mixes with the excitement of a city unlike any other.

New Orleans is a unique town full of character and history where incredible food, music, architecture and lifestyle awaits you.

**THIS IS AN EVENT YOU DO NOT WANT TO MISS.**

## EXPERTS IN YOUR FIELD

### CHAIRMAN

#### **Craig M. Walker, MD**

Clinical Professor of Medicine  
Tulane University School  
of Medicine  
New Orleans, LA

Clinical Professor of Medicine  
LSU School of Medicine  
New Orleans, LA

Founder, President and Medical  
Director  
Cardiovascular Institute of the South  
Houma, LA

### CONFERENCE CO-CHAIRMEN

#### **Amit Amin, MD**

## **BUSINESS OF MEDICINE**

### **A CONVERSATION WITH THE TITANS OF BUSINESS**

---

**TUESDAY, MAY 26**

*Chairmen: Mary L. Yost, MBA  
Craig M. Walker, MD*

Peripheral artery disease is a global challenge. We have assembled some of the brightest minds to address outcomes, reimbursements and future trends. This forum focuses on the business of medicine and why it is essential to every community, hospital, interventional lab and patient. It will also touch on medical intervention and how new technology will affect cost and outcomes. Furthermore, there will be numerous discussions on the business aspects of outpatient vascular centers and other practice options.

### **LEADERSHIP**

Mary L. Yost is a national thought leader in PAD economic research and consulting. Her training as an economist at the University of California, Berkeley and experience on Wall Street combined with her passion for PAD and CLI education has led her to be the nation's expert on the economic impact of peripheral disease and financial consequence of unnecessary amputation.

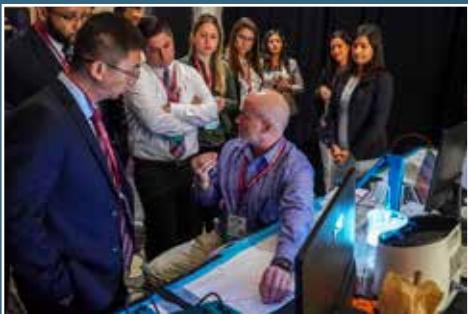

# LEARN FROM **THE MASTERS**

## *10<sup>th</sup> Annual* **FELLOWS COURSE**

**TUESDAY, MAY 26**

*Chairmen:* Robert E. Beasley, MD | Carlos I. Mena, MD  
Craig M. Walker, MD

The Fellows Course at NCVH, “Complex Strategies for Peripheral Interventions,” is a must-attend educational opportunity for fellows in their final two years of interventional cardiology, vascular surgery or interventional radiology training. This comprehensive program features masters in peripheral interventions and vascular medicine and includes didactic lectures, case studies, simulation training and intensive hands-on learning at the Louisiana State University (LSU) Medical School Innovation Lab.

*Enrollment is limited. To register visit [ncvh.org/fellows](http://ncvh.org/fellows) or call 337.993.7920*

## *4<sup>th</sup> Annual*

## **MEET THE TITANS OF PERIPHERAL INTERVENTIONS** RECEPTION

**TUESDAY, MAY 26 | 6:00 - 7:30 PM**

High-energy networking social immediately following the Fellows Course and Business of Medicine stakeholders forum.

---

21<sup>st</sup> Annual

## GLOBAL SUMMIT ON ADVANCED AORTOILIAC AND FEMORAL INTERVENTIONS FOR PAD

**WEDNESDAY, MAY 27 | GENERAL SESSION**

Insight into tomorrow's emerging technologies and treatments for peripheral disease by faculty who are defining and setting the bar for complex endovascular interventions. Learning methods include rapid fire didactic lectures, specialty-specific content and live case transmissions by leading institutions from around the world.

---

1<sup>st</sup> Annual

**NEW**

## VENOUS THROMBOEMBOLISM (VTE) COURSE

**WEDNESDAY, MAY 27 | GENERAL SESSION**

*Chairman:* Pradeep Nair, MD

Understanding VTE is crucial for all medical practitioners, irrespective of specialty. We all see it, we all treat it, and patients suffer from it. Yet, there still remains a variance in treatment strategies depending upon region of practice and clinical expertise.

Since the turn of the century, numerous thrombectomy devices have been cleared by the FDA, yet these were mostly intended for the arterial system. Thanks to innovation, we now have multiple tools dedicated for deep vein thrombosis and pulmonary embolism. This session will provide a contemporary approach on who, when, and how to treat VTE from the acute all the way through to the chronic phase of the disease.

*16<sup>th</sup> Annual*  
**CRITICAL LIMB  
ISCHEMIA SUMMIT**

**THURSDAY, MAY 28 | GENERAL SESSION**

Pioneered by NCVH, the Critical Limb Ischemia Summit continues to bring together the world's most gifted physicians as they unite for one singular goal:

**AMPUTATION PREVENTION**

Live cases will demonstrate new techniques and complex below-the-knee procedures not seen at any other peripheral conference.

*Join us at the*  
**ORPHEUM THEATER**

**WEDNESDAY, MAY 27**

**6:00 PM**

**FOR AN EVENING OF LIVE  
MUSIC, FOOD AND DRINKS.**

*Don't miss this event!*

**MORE INFO TO COME**

## *6<sup>th</sup> Annual*

### **VENOUS DISEASE: EXPLORING THE NEXT FRONTIER**

#### **FRIDAY, MAY 29 | GENERAL SESSION**

*Chairmen:* Seshadri Raju, MD | Patricia Thorpe, MD

Venous disease is the new frontier in vascular interventions. Didactic lectures and live cases by multispecialty pioneers will demonstrate new technologies and techniques available for patients suffering from venous disease.

---

## *6<sup>th</sup> Annual*

### **VEIN FORUM**

#### **FRIDAY, MAY 29 | GENERAL SESSION**

*Chairmen:* Robert Attaran, MD | Ariel Soffer, MD

*Course Director:* Anil Chagarlamudi, MD

The NCVH Vein Forum, "A Multi-disciplinary Approach to Optimizing Venous Circulation," is the premier vein symposium for interventional cardiologists and endovascular specialists who provide comprehensive circulatory patient care.

*3<sup>rd</sup> Annual*

## **DISPARITIES IN HEALTHCARE**

Chairmen: Arti Singh, MD | Charise Ward, MD

### **FRIDAY, MAY 29 | GENERAL SESSION**

A vitally important, but often overlooked topic. We dive further into the different symptoms and treatments of male vs. female, along with racial differentiations for peripheral interventions. With cardiovascular disease being the number one cause of death in women, this is an exciting topic to explore at a time when so few are giving it the attention it deserves.

---

## *Multi-Disciplinary Sessions*

### **HEALTHCARE PROFESSIONALS FORUM**

#### **WEDNESDAY AND THURSDAY, MAY 27 & 28 | MULTI-DISCIPLINARY SESSION**

*Chairmen:* David Slovut, MD

*Course Directors:* Denise Broussard, RN | Valerie Harris, RN

Ryan Hebert, MHA, RT (R) | Michelle Sloan, APN

NCVH welcomes back the Healthcare Professionals Forum for Nurses and Technologists. This outstanding forum will focus on discussing and learning the latest advances in endovascular, interventional and pharmacological strategies for the management of the cardiovascular patient. Content is presented utilizing didactic lectures, live-case presentations and peer-led panel discussion. You won't want to miss these true multi-disciplinary sessions.

---

### **RCIS REVIEW**

#### **WEDNESDAY, MAY 27 | MULTI-DISCIPLINARY SESSION**

*Course Director:* Jeff Davis, RRT, RCIS | Patrick Hoier, BS, RCIS

NCVH will once again offer a dedicated Registered Cardiovascular Invasive Specialist (RCIS) Review Course. This review will assist cath lab technologists and nurses in preparation for their registry exam. This course identifies areas in which you need to concentrate your self-study and will serve as an overview for those who are preparing to take the exam. This course will focus on coronary and vascular anatomy, hemodynamic, pathophysiology and interventional treatments.

## PODIATRY AND WOUNDCARE

**WEDNESDAY AND THURSDAY  
MAY 27 & 28 | MULTI-DISCIPLINARY SESSION**

*Chairman: Frank Tursi, DPM*

In a true multidisciplinary format, the Podiatry and Woundcare sessions, chaired by Dr. Frank Tursi, is one of the many highlights at NCVH. With a panel of experts, you will learn about all the aspects of the woundcare world

and how it pertains to other disciplines as well. Between the panel discussion and the didactic lectures, this is the session you want to attend.

## FAMILY PRACTICE

**WEDNESDAY AND THURSDAY  
MAY 27 & 28 | MULTI-DISCIPLINARY SESSION**

*Chairman: Pradeep Nair, MD*

The Family Practice sessions are dedicated tracks to give the Primary Care providers updates on cardiovascular and peripheral artery disease. You will learn about new hypertension guidelines, lipid management, new advancements in the medical treatment of heart failure, how to tackle combined arterial and venous PVD, carotid and renal stents and who they are for, how to recognize PAD and when it requires revascularization.
